CHILD'S CASE HISTORY:

The above precious lovely young one is Alfonse Kamanda by name who maybe was born in 2006. He is in grade one this year 2014. Alfonse was born in a family of a widow woman. The widow abandoned Alfonse due to the HIV/AIDS. The mother was HIV positive as she was discovered by the hospital examination. The mother declared that, she will never live longer due to the infection.

Alfonse was referred into our care program as it was requested by her mother. We decided to take immediate rescue for Alfonse. We received him on 18th April 2010. We then took Alfonse to the hospital for examination and he was found with good health. The child is with us and is happy and eating well. And can smile again as he can tell.

It is our prayer if God can talk with you friends to become Alfonse's sponsor. God will bless you. We welcome you for Alfonse's life.
