CHILD'S CASE HISTORY:

Alice Manasi is a lovely young girl with six years old of age. The Mother was not married. But she was sick to the cause of HIV/AIDS as she was proved by the Doctor in Hospital examination. The Mother saw that, it was the end of her life. She decided to take position and she passed away early February 2008 shortly after a deadly 2008 past-election violence. Alice was left lonely without care but a neighbor took her and cared her for some few months and was neglected.

Alice was referred into our care program on 14th September 2009. She is born without a brother or a sister. She is now under our care program and is taken care by our Staff as it was requested and being monitored by the Ministry.

May the God our Father touch whoever can be willing and can have passion for the child for prayer and support. We invite you as Alice's sponsor as you will be lead by God.
