SCHOOL GRADE	TWO
NATIONALITY	KENYAN
CARE TAKER'S NAME	BRO. JUSTUS
Information submitted	Jan. 7, 2014

CHILD'S CASE HISTORY:

The above young Child is Deborah Nyanchera. She is about 11 years old but we have no exact date of her birth. She is in grade Six this year 2014 and seems to be working hard.

Deborah had a very difficult family background. Her Mother died in 2008 before getting married. And She has experienced abuse from another family member says that, the Child is in HIV/AIDS positive. But when Deborah was taken to Hospital for her Medical checkup examination, she was found in HIV positive and she is under medication drugs. Deborah has one young brother and one young Sister.

We found Deborah with a very disturbed life and we brought her into our care program on 11th September the year 2010. Deborah is settling into under our care program and is undergoing counseling. She is in good health. We humble ourselves and ask God's presence in the life of this young Kid.

We will appreciate your prayers and support for Deborah as the Lord speaking to you.
